

Cayman Island villa design concept by interior design house, SAINT & NOIRE

Saint and Noire have been appointed to project manage, design, and procure another luxurious villa; working closely and collaboratively with the client to create a minimal and striking family home, for work, leisure, and pure relaxation in an exquisite coastal marina of the Cayman Islands.

Inspired by the Bauhaus* avant-garde of the 20th century modernism, influential - from the iconic Mies Van Der Rohe classic armchairs, low lounge chairs and stripped soft furnishings to contemporary spotlighting, the design concept offers a truly compelling futuristic residential abode.

Industrial textures of wood, steel, metal and marble with clean lines, paintings, sculptures, elevate the muted grey, black, brown, and white accent colour palette - whilst a pop of colourful sheers and chrome trimmings, contrasts elegantly well with geometric shapes and modern aesthetics.

Bespoke elements from an exquisite piano and pool table - which transcends into a dining table and staple furniture from master craft makers Knoll and Minotti, wonderfully reflect the luxury innovative living vision, desired by the client.

Abundant natural light with endless large open windows, floods the open floor space, bringing warmth and clarity. Wooden panels divide the living, dining, and kitchen area with a spacious ebb & flow.

The bedroom designs are the epitome of lightweight comfort - luxurious textiles for the throws and pillows and a concealed walk-in wardrobes. The bathroom with its industrial walk-in shower, fitted with sparkly glass doors and

surrounded by concrete cast walls - is a modern classic sanctuary.
